CASE STUDY: Baker Bite

Since its launch, "*Bakerz Bite*" has developed into a reputable bakery & café, specializing in baked goods, passionately made from the finest ingredients.

Bakerz Bite offers a wide range of baked goods made fresh in-store every day. The bakery chain offers more than 300 different kinds of baked goods, including artisan pastries, gourmet cakes and desserts, and handcrafted beverages.

The brand takes pride in sourcing and using carefully selected ingredients and promises to bring freshness and quality to its customers. Bakerz Bite continues to expand and embrace innovation in all markets.

We believe and are dedicated in delivering premium quality products. So we only use real butter, cream and unbleached flour. We treat our Customers as our family and will not use any ingredient which we will not want to feed ours.

Our Motto: Where smiles are served daily.

You are supposed to create a Single-Page-Application and responsive Website for them with the below mentioned requirement specifications.
The website should work well in all leading browsers including Chrome, IE, Firefox etc.

ACKNOWLEDGEMENT

I would like to acknowledge all those who have given moral support and helped in making the project a success.

I wish to express my gratitude to the eProjects Team all the Head Office, who guided and helped me. I would also like to express my gratitude to all the staff members of my center for not only providing me with the opportunity to work with them on this project but also for their support and encouragement throughout the process.

I also express my sincere gratitude to the eProject Team at the Aptech Head Office and my project guide at the organization, for her valuable guidance and support for the completion of this project.

And finally, I would like to offer many thanks to all my colleagues for their valuable suggestions and constructive feedback.
